

Inbound - Leuven Belgium 2009

The Leuven Exchange is long since over but the happy memories still bring a smile to the face.

The 11 Ambassadors from Leuven were a friendly and co-operative group who enjoyed the full program we provided for them. Following soon after the dust storm, the view of the Glasshouse Mountains was rather obscured but that was a minor glitz.

The Ambassadors enjoyed seeing the beautiful Parrots in Paradise, the bird show at Glass House.

The Apollonian Aussie BBQ lunch at Boreen Point also was a hit. The Kite Festival at

Coolum was great, even though it was a very hot day. We did expect to see more kites in the sky though.

The leisure day was spent on a day trip to Fraser Island. It was delightful to them as they swam and enjoyed the island. The drive along the beach from Inskip Point to Noosa was quite an experience especially the rock hopping between the waves. Not usually experienced along the European foreshore!

Of course the final highlight was the wonderful coverage we had in the Buderim Chronicle.

Thanks to much persuasion by John G the reporter came along to our Farewell Lunch at Headlands Golf Club and took photos and interviews which were then published. Hopefully this coverage will help both clubs in membership recruitment.
